Dear Parents,

We made it through our first month with flying colors! Thank you to all our parents that made it to our Parent Orientation on August 27th. That was one of the two parent workshops you are required to attend. We will have more throughout the year, I’ll keep you posted.

Please remember to bring a Doctor note for any missed days. I keep them in a monthly file.

Our partners will start this month. We will have Girl Scouts, Boy Scouts and the 4-H Club come out to work on our garden.

Attendance in BASA: (your grant)

The BAS Academy Program is an academic based program which requires the students to be attending each day checking out no earlier than 5:47 PM. We want every student to get the maximum benefits from the program. If your child is continuously absent, picked up early, or picked up late, they may be asked to leave the program.

If your child is absent or not attending on a specific day, please let us know. This is for the safety of your child.

Three reasons every father should read to their child and not just moms:

1. **Dads provide a different set of skills to their children.** When mom and dad read to their children, it positively impacts their learning. When fathers read to their children, the child’s verbal skills can increase by up to fifteen percent, which does not typically happen when just moms read to them.

2. **Children are better behaved.** Studies show that when fathers read to their children and share other caregiving responsibilities with mom, their children have better attachment, they have high self-esteem, and show better social competence. The time fathers spend with their children builds their literacy skills, the child has better impulse control, shows a greater ability to take initiative, and are more empathetic.

3. **Children do better academically.** When dads model the importance of literacy to their children, they perform better in academic endeavors, and have higher scores on standardized achievement tests.
