

BASA: North

Mims Elementary

2582 US Highway 1 Mims Fl. 32754

Coordinator: Gail Budnik 321 264 3020 Ext. 47729

Dear Parents,

This month we will be talking about Saturn, how Ions can be created, talking about friendship, making 3D glasses, writing postcards, talking about the Constellations in the sky, making crafts, and playing games. We offer computer time, academic time, wellness time, and arts.

For more information about our program please call. Thank you.

Inquiring Minds

Inquiring Minds will be the theme for all of our activities when we return from the winter break. Students will work through challenges in hopes of earning badges as they complete tasks and projects. The challenges have been designed with the help of the Brevard Zoo and Brevard Cultural Alliance, and are all related to Inquiring Minds theme Brevard After School Website

Don't forget to go to the Brevard After School 21st CCLC website to get the latest information including newsletters, pictures of students completing challenges, workshop schedules and information, and updates from the Semi-Annual Advisory Board Meetings.

Upcoming Events

12/16-17/15 EXAMS

12/ 21/15-01/05/15- School is closed

01/05/15 Students return to school

What you can do to promote early learning

1. Play with your child and provide opportunities for them to play. Play is essential for healthy brain development.
2. Turn off the TV. A young child's brain is largely shaped by his/her development. Children need activities that stimulate the frontal lobe by involving all the senses, not just passive viewing.
3. Read and talk to your child. Phonemic awareness of sound comes from listening to the human voice.
4. Model the joy of learning and discovery. Go to parks, the beach, zoos and take children on walks. These types of activities stimulate early learning.
5. Connect with your child. Connections boost children's brain potential, encourages cooperation, promotes learning and literacy, increases attention, decreases power struggles and builds loving bonds.
