### How to Balance Family Needs

Contribution and connection are the keys to balancing your family's needs. As a parent, there are days when it seems easier to do everything yourself, but responsibilities stack up and you may feel stress and resentment. Doing it all yourself also robs children of the value of contributing to the family. Assign children jobs or chores based on their developmental level. Contribution to the family by performing a job eases some of your responsibilities, increases children's senses of well-being, and fosters cooperation. Create time for your family to connect. Five minutes of play a day will reduce power struggles with children by 50%. Setting aside time for connection with your child pays significant dividends in cooperation and contentment.
