Coordinator: Terri Bagby T: 321-633-3545 ext. 5021/4017

Dear Parents,

We are so excited about the opening of our new 21<sup>st</sup> CCLC program here at Endeavour! We have just a short time before Winter Break begins. Your child will be involved in hands on activities and will be collecting badges as they complete each level. We have several great clubs your child can choose to participate in that our teachers will be hosting. Students will be given the opportunity to complete homework and will be assisted if needed. We will have a super-snack every day at 4:00. Our program dismisses at 6:00. If you must pick your child up early for an appointment please see the Coordinator. We also have community partners that will be visiting us to provide fun opportunities for your child as well. If you are interested in volunteering please see the Coordinator, we would love to have you help out when possible.

## Brevard After School Website

Don't forget to go to the Brevard After School 21<sup>st</sup> CCLC website to get the latest information including newsletters, pictures of students completing challenges, workshop schedules and information, and updates from the Semi-Annual Advisory Board Meetings.

We are all like a snowflake in our own different way.  
-Unknown

## Upcoming Events

**Dec. 13, 2017**

Community Dinner and Winter Concert: (dinner provided by Church at Viera)

**Early Release days**

Dec. 19, 20, and 21<sup>st</sup>

**Winter Break begins Dec. 22nd**

## What you can do to promote early learning

1. Play with your child and provide opportunities for them to play. Play is essential for healthy brain development.
2. Turn off the TV. A young child's brain is largely shaped by his/her development. Children need activities that stimulate the frontal lobe by involving all the senses, not just passive viewing.
3. Read and talk to your child. Phonemic awareness of sound comes from listening to the human voice.
4. Model the joy of learning and discovery. Go to parks, the beach, zoos and take children on walks. These types of activities stimulate early learning.
5. Connect with your child. Connections boost children's brain potential, encourages cooperation, promotes learning and literacy, increases attention, decreases power struggles and builds loving bonds.
