

Brevard Public Schools is currently making application for continued funding for existing 21st Century Community Learning Centers in area schools listed below. The design of the program will help students meet state and local standards in core academic subjects. Brevard Public Schools will base the program on the assessment of a Principal needs survey, school improvement plans and objective data. The program will provide academic afterschool activities which under the parameters of a federally defined program must target activities in the following areas: Literacy and English Language Arts, Mathematics, Science, Personal Enrichments and Family Member Performance. If your organization is interested in participating in the development of these programs (particularly as to what services it should provide) and can offer ideas as to how the children's needs can be identified, please give us a call at 321-633-3660 x 31469.

Additionally, eligible non-public school children who reside within the boundaries of the selected schools may benefit from one or more of the services offered through this Grant. To reach all eligible children, Brevard Public Schools would like to collaborate with the Private Schools sector to meet the needs of the students in the community. As the sub-recipient, Brevard Public Schools would like to offer equitable services to your students, their teachers and other educational personnel. If you have eligible children and would like to discuss this opportunity further or have teachers and other educational staff that might be interested in the program offerings, please contact us at 321-633-3660 x 31469.

The Brevard Afterschool Team is meeting to develop next year's program activities and would appreciate the additional input. Our organization will continue to provide timely and meaningful information to the private school sector via email regarding future program changes and operations of a 21st CCLC program. If possible, the Brevard Afterschool Team would appreciate it if you could disseminate this information to your faculty and families.

We look forward to the possibility of working with your organization to bring the best possible services to the children of our community.
