Coordinator: Terri Bagby T: 321-633-3545

Dear Parents,

I cannot believe it is already December. So much has happened this year! It has been one for the books! We are working on our new theme, Super Sleuth. Students will be studying many different fun and exciting things during this theme. We will continue to offer tutoring for all students in Math and Reading. Thursday's, we discover lots of fun things in Science.

As a reminder, we are dismissing in front of the office now, due to the time change. Safety is our priority. If you need to speak to one of us during dismissal, please park and walk over so we do not hold up traffic.

As the weather changes, be sure to label your child's jackets.

**We hope you and your family have a safe, and happy holiday.**

## Brevard After School Website

Don't forget to go to the Brevard After School 21<sup>st</sup> CCLC website to get the latest information including newsletters, pictures of students completing challenges, workshop schedules and information, and updates from the Semi-Annual Advisory Board Meetings.

**We are all like a snowflake in our own different way.**

## Upcoming Events

December 21-January 1- Winter Break

## What you can do to promote early learning

1. Play with your child and provide opportunities for them to play. Play is essential for healthy brain development.
2. Turn off the TV. A young child's brain is largely shaped by his/her development. Children need activities that stimulate the frontal lobe by involving all the senses, not just passive viewing.
3. Read and talk to your child. Phonemic awareness of sound comes from listening to the human voice.
4. Model the joy of learning and discovery. Go to parks, the beach, zoos and take children on walks. These types of activities stimulate early learning.
5. Connect with your child. Connections boost children's brain potential, encourages cooperation, promotes learning and literacy, increases attention, decreases power struggles and builds loving bonds.
