## About the Coordinator

My name is Jason Cromer, and your kids will know me as Mr. Jason. I graduated from the University of Florida with a Bachelors of Psychology, and graduated from FSU with a Masters of Educational Psychology and Learning Systems with a focus on Sport Psychology. I spent nearly 4 years as a teacher/mentor for an afterschool program which ran in Tallahassee and Monticello focusing on drug and violence education and prevention. Our program received the 2006 Exemplary Program and Best Practices Awards from Florida Department of Children and Families and the Florida Alcohol and Drug Abuse Association. I enjoy all variety of sport and in my spare time like to fish and surf. I am thrilled to be your coordinator and have the opportunity to educate and entertain your children!

## Welcome Students & Parents!

I would like to welcome everyone back to a new year of Brevard After School and 21st CCLC After School Academy! My name is Jason and I am the new coordinator here at Dr. W.J. Creel Elementary. I feel so very fortunate to be the one to provide your children with an environment providing safety, education, and fun.

Obviously this school year and the after school programs will be functioning a bit differently than in the past due to COVID-19 and the protocols handed down by the CDC and the district. Although I intend on education, active involvement, and enjoyment being my central focal points, my primary objective will always be the safety and well being of your children.

The curriculum for September in our program involves the Jurassic Era. Your kids are learning about dinosaurs, what they ate, what their physical features were used for, and how we know about them through the fossil record. We are engaging them through visual and performance art projects as well as personal enrichment activities.

Please don't hesitate to contact me with any questions or concerns that may you may have. I look forward to meeting you and making a positive impact on the lives of your children!
